Program

ABSTRACT

Participation levels for 1984-1985 for two student financial aid programs provided by the State of Alaska and one regional student exchange program are reported. Brief descriptions of these programs are included: the Alaska Student Loan Program, the Western Interstate Commission for Higher Education (WICHE) Student Exchange Program, and the State Educational Incentive Grant Program. In addition to data on participation rates for the programs, information is included on: loan award amounts, undergraduate and graduate loans, foreign study, loan repayment and default, and WICHE program exchange fields. Statistical tables cover: mean loan amounts per recipient by in-state/out-of-state student level, 1981-1985; 10 top states of attendance for Alaskans with undergraduate loans, 1979-1985; in-state and out-of-state attendance by student level, 1982-1985; distribution of borrowers by foreign country by attendance, 1984-1985; distribution of students receiving state educational incentives grants, 1978-1985; yearly summary of undergraduate and graduate student loans; distribution of Alaska State loans for students attending in Alaska, 1984-1985; institutions at which 50 Alaska student loan borrowers attended, 1984-1985; and percent of undergraduate and graduate loans used in Alaska. PREFACE

The Annual Report on Alaska Student Financial Aid Programs for 1984-85 is hereby transmitted to the Governor and the Legislature of the State of Alaska. The Student Loan Program is administered by the Alaska Commission on Postsecondary Education with advice and guidance of the Student Financial Aid Advisory Committee. Membership of this advisory committee for 1984-85 included:

Ms. Patricia Abney, Chair (Anchorage)
Mr. Jack Blair (Anchorage)
Ms. Eleanor Brown (Anchorage)
Ms. Ida Greiner (Fairbanks)
Mr. Rick Helms (Anchorage)
Representative Niilo Koponen (Fairbanks)

The Commission and staff wish to express their gratitude for the work of this advisory committee.

Kerry D. Romesburg
Executive Director

INTRODUCTION

The State of Alaska provides student financial assistance for postsecondary study through three programs: the Alaska Student Loan Program, the WICHE Student Exchange Program, and the State Educational Incentive Grant (SEIG) Program. The three programs provide Alaskans with access to postsecondary education which otherwise might not be available. Through the loan and grant programs direct financial assistance is awarded to students in an effort to remove or lessen financial barriers to postsecondary education. Through the student exchange program, Alaskans have access to graduate, professional, and highly specialized fields which are unavailable in-state.

This report briefly summarizes each of these programs and the participation levels for 1984-85. The Student Loan Program will be discussed first, then the WICHE Student Exchange Program, and finally, the Incentive Grant Program.

ALASKA STUDENT LOAN PROGRAM

The Alaska Student Loan Program is one of the most successful programs offered by the State of Alaska. Its purpose is to provide low-interest loans to Alaskans wishing to pursue education and training at a postsecondary level. The program has grown from serving just over 1,000 Alaskans, in 1971-72, to the current 1984-85 level of serving over 17,000 Alaskans.

The Alaska Student Loan Program had its origin in a program of scholarship loans established by the 1968 Alaska State Legislature. This program was amended in 1970 and completely restructured in 1971, when the Legislature established the loan program generally as it exists at present. In the fourteen years of operation since then, nearly 80,000 student loans have been awarded to Alaskan residents, for a total of nearly \$290 million.

Educational loans of up to \$6,000 and \$7,000 per year for undergraduate and graduate study, respectively, are provided to eligible state residents. These loans, to be used only to offset the costs of tuition, room, board, and books, offer the borrower a ten-year repayment period at an annual interest rate of five percent. The loans may be used for full-time attendance at any accredited or approved college, university, or vocational-technical program. An incentive of up to fifty percent cancellation is offered to those borrowers who reside in Alaska after completion of their programs of study.

Program Summary

During the 1984-85 school year over 19,000 loans were awarded, and 17,173 were finalized and used for postsecondary attendance. Of these 17,173 loans, 54.0 percent were for attendance in Alaska, and 46.0 percent were for attendance out-of-state.

Undergraduate loans continue to dominate the loan volume, with only 7.9 percent of the 1984-85 loans going for graduate study. The largest single group of loans were for freshman borrowers, who accounted for 28.8 percent of all the 1984-85 loans.

Alaskans use these loans for study throughout the United States, and in a number of foreign countries. During the 1984-85 loan year, students from Alaska used state loans for attendance in every state in the Union and in eighteen foreign countries. The most frequent choice continues to be Alaska by more than a four-to-one margin over any other state.

Loan Award Amounts

The average loan award continued to rise slightly in 1984-85, following the dramatic rise in 1981-82 when the borrowing maximums were raised. For 1984-85, an undergraduate average loan was \$4,288 while the average graduate loan was \$5,363. Out-of-state student loans continue to be higher, on the average, than in-state loans, due largely to non-resident tuition fees. This is graphically presented in Figure 1. It is anticipated that the trend toward higher average loans will continue in the years ahead as tuition rates continue to increase.

Table 1 contains average loan amounts by student level for the last three years, 1982-83, 1983-84, and 1984-85. In general all loans, regardless of level, have steadily increased, for students attending in-state, and have leveled, or even dropped slightly, for those attending out-of-state. The out-of-state borrower averages a higher loan amount than the in-state borrower for every classification other than vocational.

TOTAL	\$3,872	\$4,013	\$4,062	\$4,558	\$4,502	\$4,735	\$4,213	\$4,255	\$4,372

Undergraduate Loans

The number of undergraduate students receiving loans under the state program has increased greatly over the past fourteen years. In 1971-72, 990 undergraduates received assistance, while in 1984-85, the number has grown to 15,814. Of these 15,814 loan recipients, 56.7 percent used their loans for attendance in Alaska, and 43.3 percent used their loans out-of-state. The states most frequently chosen by undergraduates in 1984-85 are presented in Table 2.

The consistency of student choice over the past few years is quite high. Alaska remains the most frequent choice for undergraduate attendance this year, as it has been in the past, followed by Washington, Oregon and California.

The average loan amount increased in almost every case, with the most pronounced increase in loans for attendance in Hawaii, Texas, and Idaho. Of the top ten states of attendance, only Utah (\$3,762) has a lower average loan rate than Alaska.

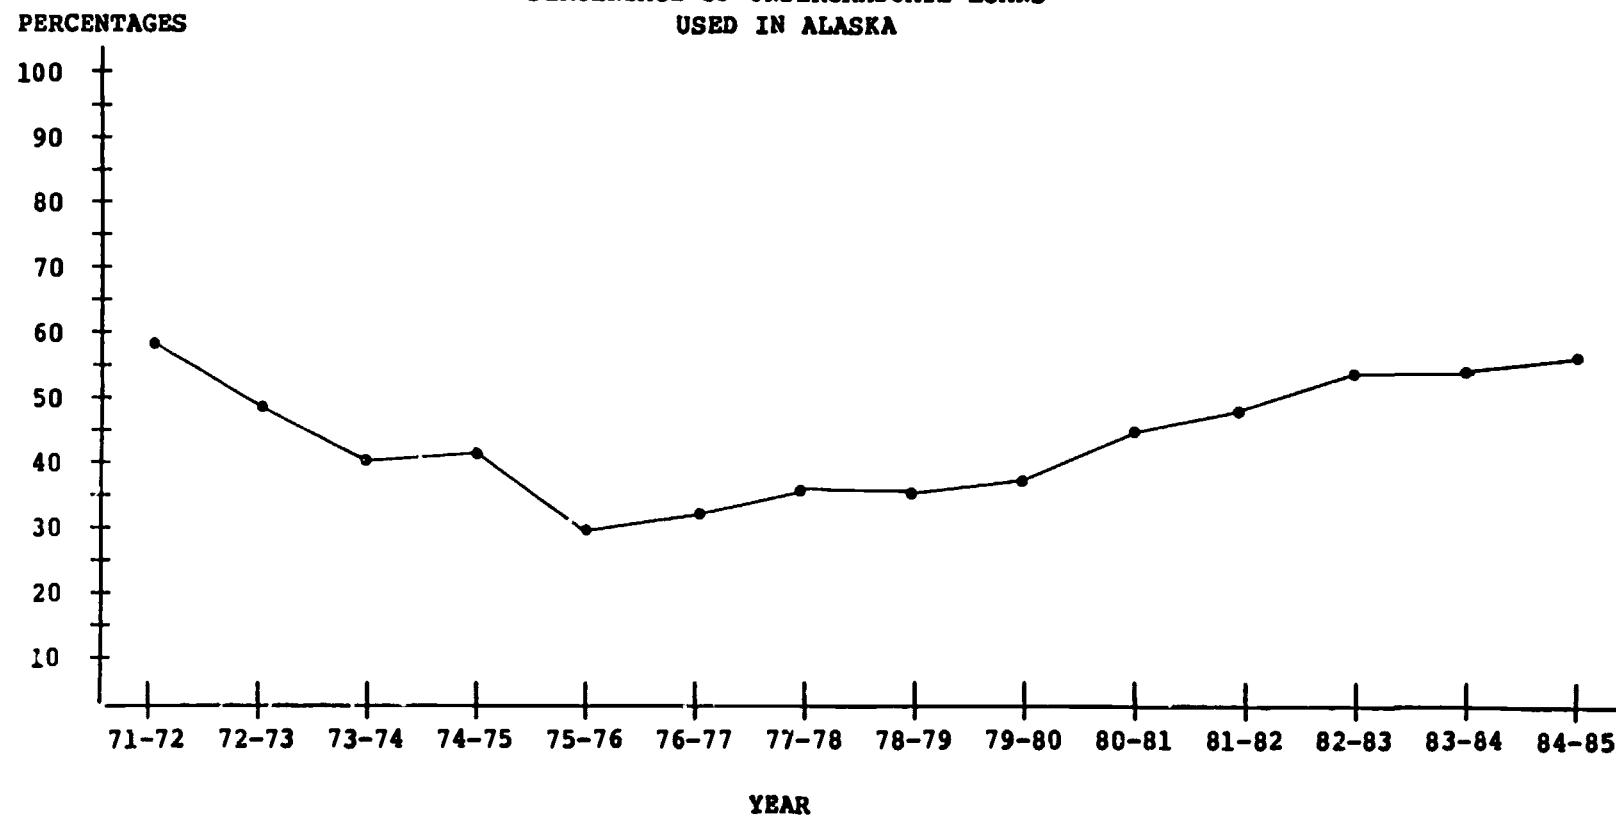

The percent of undergraduates using their loans for attendance in Alaska continued to increase again this year. In fact, as can be seen in Figure 2, the 1984-85 rate of 56.7 percent is the highest in-state rate since the first year of the program, 1971-72.

The increasing drawing power of Alaskan institutions is hypothesized to be the result of a number of factors including the maturation of Alaska's schools and the accompanying wider array of offerings, as well as the increased cost of attendance at schools outside of Alaska.

FIGURE 2
PERCENTAGE OF UNDERGRADUATE LOANS
USED IN ALASKA

The wide geographic distribution of Alaskans pursuing undergraduate education is shown most vividly in Figure 3, with Alaskan undergraduates attending institutions in every state of the Union. The predominance of the West and Northwest is quite evident, with only Alaska, Washington, Oregon, California, Arizona, Colorado, Idaho, Hawaii and Utah, receiving over 200 Alaskan undergraduates on state loans. Of the thirteen western states comprising the WICHE compact (Western Interstate Commission for Higher Education), only Wyoming received fewer than 20 Alaska undergraduates on state loans. In fact, the WICHE states account for 90.7 percent of the undergraduate loan recipients.

Under the state loan program, Alaskans may pursue their educational goals in whatever setting seems most appropriate for them. The freedom of choice which this provides is quite evident by the wide geographic distribution of our students.

As can be seen in Table 3, Alaska attendance accounts for a very high percentage of vocational borrowers (75.2% in 1984-85). Also, more than half (58.8%) of the freshman borrowers elected to attend in Alaska in 1984-85. There seems to be an increased tendency toward attendance out-of-state as student level increases, however this could be due to a number of factors including the changing attendance patterns the last few years and the propensity to remain in school rather than stop-out or drop-out. Hence, caution should be used in drawing inferences from these data.

TABLE 3
 IN-STATE/OUT-OF-STATE ATTENDANCE
 BY STUDENT LEVEL
 1982-83 through 1984-85

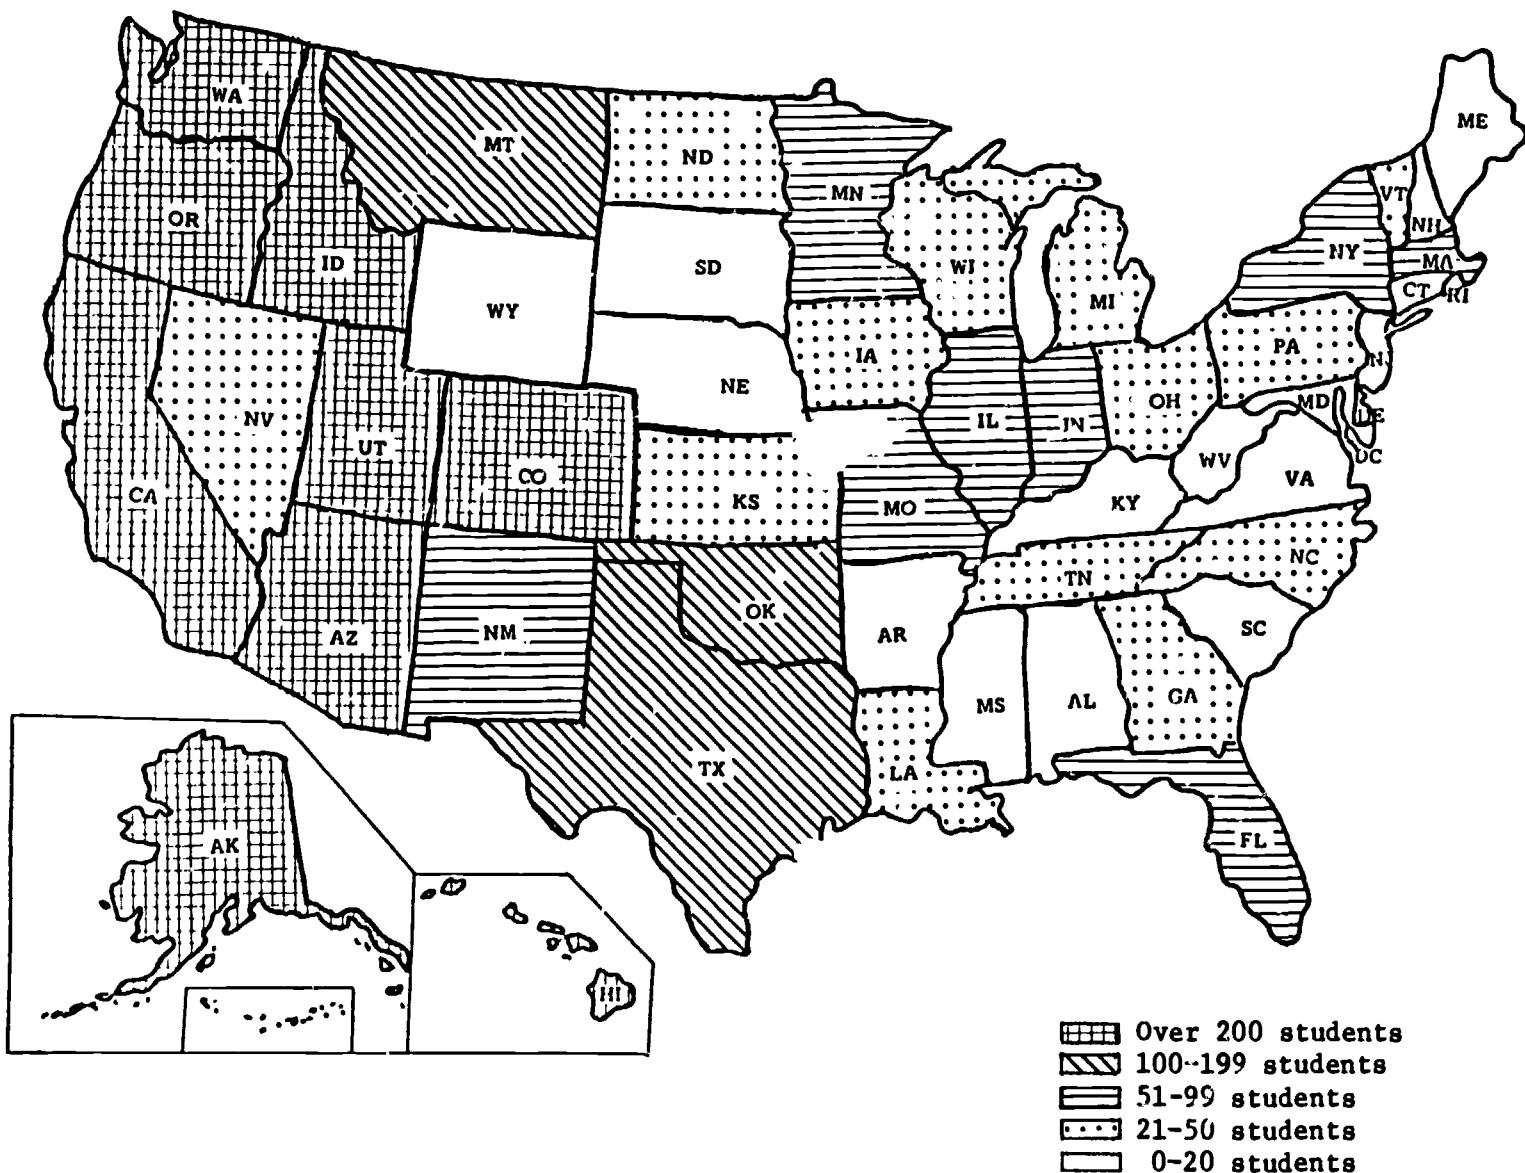

FIGURE 3
GEOGRAPHIC DISTRIBUTION OF ALASKANS UTILIZING
STATE LOANS FOR UNDERGRADUATE EDUCATION IN 1984-85

Graduate Loans

The number of Alaskans receiving loans for graduate study has increased nearly twelve fold since the program began in 1971-72, but seems to have stabilized this year. In 1984-85, 1,359 students received assistance for the pursuit of graduate study. Of these 1,359, 78.3 percent used their loans for attendance outside of Alaska, while 21.7 percent used them for attending school in-state. The percentage of graduate loan recipients attending school in Alaska has been relatively stable the last few years, after decreasing steadily from 1971-72 through 1977-78, and then increasing steadily from 1978-79 through 1982-83. This trend is presented in Figure 4, and is probably largely due to the increased availability of programs in Alaska.

The states most frequently chosen by graduate students from Alaska in 1984-85 are presented in Table 4. Again, as with undergraduates, the students' preference is quite stable.

The average loan award for 1984-85 increased for some states and decreased for others, with the largest increases for students attending graduate institutions in Oregon and California.

Alaskans pursuing graduate educational goals are also distributed quite widely across the nation, with Alaskan graduate loan recipients attending institutions in all but four of the fifty states. The predominance of the West, and particularly the West Coast, is readily apparent in Figure 5.

Only Alaska, Washington, California, and Oregon received more than 100 Alaskan graduate students on state loans. The thirteen states comprising the WICHE compact account for 71.8 percent of all the graduate Alaskan loan recipients for 1984-85.

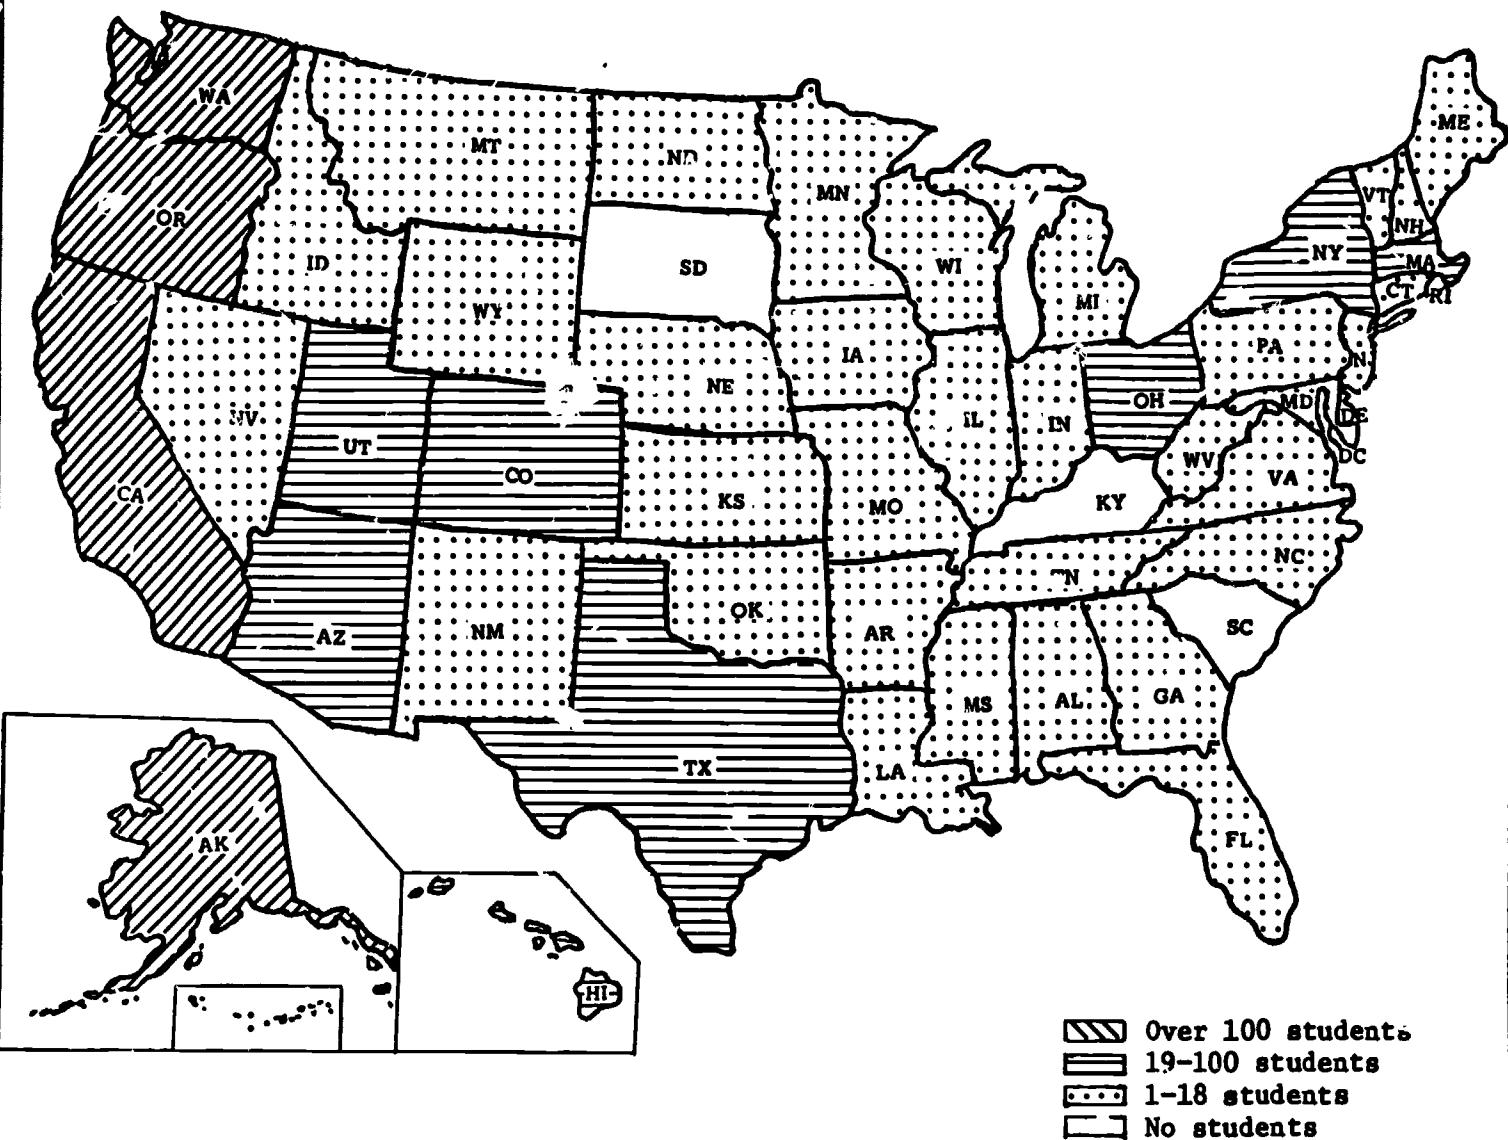

FIGURE 5
GEOGRAPHIC DISTRIBUTION OF ALASKANS UTILIZING
STATE LOANS FOR GRADUATE EDUCATION IN 1984-85

Foreign Study

Alaskans used state loans for study in fifty-two different institutions in eighteen foreign countries in 1984-85. The distribution of these students by country of attendance is presented in Table 5. Not too surprisingly, Canada is the most popular foreign country for attendance of Alaskan students.

TABLE 5

TOTAL	54	\$4,026	22	\$5,273

Loan Repayments

The student loan program is based upon a revolving fund with the students' loan repayments being re-utilized for future student loans. Since 1971-72 (actually 1974-75, since there were no repayments received the first few years), Alaskans have repaid nearly \$32 million on their educational loans. The volume of these revolving funds now contribute a significant portion of the loan account, and as can be seen in Figure 6, these repayments are rapidly increasing each year.

Also presented in Figure 6 is a representation of the forgiveness history of the student loan program. Students who reside in Alaska after completion of their course of study are eligible to have up to 50 percent of their loans forgiven. Beginning with the first such forgiveness in 1974-75, the total amount of loan funds (including interest) which the State of Alaska has forgiven has generally shown large annual increases, with the exception of 1979-80 when forgiveness benefits temporarily leveled. During 1984-85 nearly 4,300 Alaskans received partial forgiveness of their student loans. Increases are projected to continue over the next few years as larger numbers of students complete their educational programs.

FIGURE 6
STUDENT LOAN COLLECTIONS
AND FORGIVENESS BENEFITS

Default

Nationally, student loans have a notoriously high default rate, and, unfortunately, Alaska's program also has experienced problems with loan collections. Although the Alaska program had been doing considerably better than the federal loan programs, the default rate began to rise during 1983-84. As can be seen in Table 6, the default rate had been steadily decreasing since the concerted effort began in 1975-76 to pursue these bad debts. However, during 1983-84 default volumes outstripped available manpower and the rate rose dramatically. In 1984-85, the loan program contracted with a private collection firm and the default rate has slowly begun to drop again. A default rate of 10.0 percent is the target for 1985-86.

Statistical Data

In the Appendix are Tables 11-17 containing data on the Alaska Student Loan Program from 1971-72 through 1984-85. Information on the number and amounts of loans made annually to undergraduate and graduate students attending in-state and out-of-state is presented in Tables 11-14. Table 15 contains summaries of the average size loan awarded each year, and Tables 16 and 17 contain data on institutions most frequently attended by Alaska Student Loan borrowers.

WICHE STUDENT EXCHANGE PROGRAM

Through its participation in the thirteen-state Western Interstate Commission for Higher Education (WICHE), Alaska provides residents with access to sixteen fields of professional education not available in-state. The WICHE Student Exchange Program provides access to these sixteen fields at participating institutions throughout the compact states, and makes these programs available at a reduced tuition rate to the out-of-state WICHE students. These reduced rates usually amount to the normal in-state tuition rate at public colleges and universities and one-third the regular tuition rate at private colleges and universities. Alaskans certified for participation in this exchange program may also expect preferential admissions consideration by the schools to which they apply. For this, Alaska pays the college or university in which the Alaskan exchange student enrolls a set fee for a particular field of study. This fee, the support fee, covers the non-resident portion of the tuition and a portion of the institution's operating costs. The student does not receive any direct payment under this program.

Exchange Fields

The WICHE exchange fields in which Alaska would support students for the 1984-85 year included:

Architecture	Occupational Therapy
Dentistry	Optometry
Forestry	Osteopathy
Graduate Library Studies	Pharmacy
Graduate Nursing	Physical Therapy
Law	Podiatry
Maritime Technology	Public Health
Medicine	Veterinary Medicine

A student eligible for state certification in any of these fields must apply for and gain admission to the program of study. The admission decision rests solely with the receiving institution.

Support Fees

The amount of the support fee to be paid for each field of study is set annually by the WICHE Commission, with membership from all thirteen member states. These fees have increased more or less steadily over the last six years. As can be seen in Table 7, the total support fees exceeded \$1.7 million in 1984-85.

TABLE 7
WICHE STUDENT EXCHANGE PROGRAM SUPPORT COSTS
1976-77 through 1984-85

Academic Year	Total Students	Total Fees
1976-77	114	\$ 368,473

1984-85	287	1,785,378
TOTAL	2,000	\$9,550,440

Participation Rates

Law continues to be the most popular field for Alaskan students. In 1983-84 Law students accounted for 58.1 percent of the students supported under the exchange program. In 1984-85, Law represented 56.5 percent of the exchange students. The growth fields for 1984-85 were Maritime Technology, Medicine, Optometry, Osteopathy, Pharmacy, and Veterinary Medicine. These data are listed in Table 8.

TOTAL	123	152	166	232	269	300	284	287

*Discontinued as an exchange field in 1981-82.

The cost of the student exchange for 1984-85 is detailed in Table 9. It can be seen that because of the relatively low support fee for Law, Law exchange students accounted for only 36.1 percent of the total exchange cost (as opposed to accounting for 56.5 percent of the students).

TABLE 9
WICHE SUPPORT COSTS BY FIELD OF STUDY

TOTAL	N.A.	287	\$1,785,378

STATE EDUCATIONAL INCENTIVE GRANT (SEIG) PROGRAM

The State Educational Incentive Grant (SEIG) Program provides need-based grants to eligible Alaskans enrolled in undergraduate programs. Grant awards range from a minimum of \$100 to a maximum of \$1,500 each, depending upon demonstrated need. One-half of each grant is federally funded and one-half is provided by the State. Grants are awarded to eligible applicants in order of greatest financial need as measured by a standard need analysis.

Participation Rates

1984-85 was the seventh year of operation of the SEIG Program in Alaska. Over 1,500 Alaskans applied for grant funds in 1984-85, but because of fund limitations, only 168 grants were awarded. As can be seen in Table 10, however, this is a increase from 1983-84 when 126 grants were awarded. The increase is the result of a small boost in funds at the federal level. The grant funds available in 1984-85 were 27.0 percent more than the previous year.

Also listed in Table 10 are the awards for in-state and out-of-state attendance and an institutional listing of the in-state awards. As in the past, University of Alaska, Anchorage students received the most SEIG awards.
